How to Request a Refund

Refunds can be requested directly through this chat platform — simply describe your billing issue and our Billing Agent will guide you through verification and processing. You can also email billing@supportgpt.com with your account email and the transaction date.

Processing Time

Approved refunds are processed within 5-7 business days and returned to the original payment method. Bank transfer refunds may take up to 10 business days depending on your financial institution.

Annual Plan Refunds

Annual plans are refundable in full within the first 30 days. After 30 days, annual plans may be eligible for a prorated refund of unused months at our discretion, minus any discount applied for choosing annual billing.

Disputes and Chargebacks

We ask that customers contact support before filing a chargeback with their bank, as chargebacks can result in immediate account suspension while the dispute is investigated. Most billing issues can be resolved faster directly through support.
