

NovaTech Solutions — Privacy Policy

Effective date: January 1, 2026 — governs data collected via novatechsolutions.com, the NovaTech Home app, and this support platform

What Data We Collect

- Account information: name, email address, and hashed password
- Order and shipping information for purchases you make
- Device data: pairing status, firmware version, and diagnostic logs from NovaTech devices connected to your account
- Support conversation history through this chat platform, used to improve response quality
- Basic usage analytics (pages visited, features used) to improve the app and website

Data Storage & Retention

Account and order data is retained for as long as your account remains active. Support conversation history is retained for 24 months for quality and training purposes, after which it is automatically deleted. Device diagnostic logs are retained for 90 days.

Cookies & Tracking

Our website uses essential cookies required for login sessions and shopping cart functionality, plus optional analytics cookies to understand site usage. You can disable non-essential cookies through the cookie preference banner on your first visit, or anytime in your browser settings.

User Consent

By creating a NovaTech account, you consent to the collection and use of data as described in this policy. Where required by law (such as under GDPR), we obtain explicit consent before collecting non-essential data, and you may withdraw consent at any time through Account Settings or by contacting privacy@novatechsolutions.com.

Account Deletion Policy

You may request account deletion at any time from Account Settings, or by asking this chat platform to initiate deletion. Deletion requests are processed within 30 days. This permanently removes your profile, order history, and device pairings. Some information may be retained longer where required by law (e.g., transaction records for tax purposes, typically 7 years).

Data Export Requests

You can request a complete export of your personal data (profile, order history, support conversations) at any time from Account Settings > Export Data, or by contacting privacy@novatechsolutions.com. Exports are provided in JSON format within 14 days of the request.

Security Practices

- Passwords are hashed using bcrypt and are never stored in plain text
- Data in transit is encrypted using TLS 1.3
- Data at rest is encrypted using AES-256
- Access to customer data is restricted to authorized personnel on a need-to-know basis
- We conduct regular security reviews of our infrastructure

Third-Party Integrations

NovaTech devices may integrate with third-party services you choose to connect, such as Amazon Alexa or Google Assistant. When you enable these integrations, limited data (device status and voice commands) is shared with that third party according to their own privacy policy. You can disconnect any third-party integration at any time from Account Settings.

Compliance Standards

NovaTech Solutions handles personal data in accordance with GDPR (for customers in the European Union) and CCPA (for customers in California). This includes the right to access, correct, delete, and port your data, and the right to opt out of data sales — NovaTech does not sell personal data to third parties under any circumstances.

Your Rights

- Right to access the personal data we hold about you
- Right to correct inaccurate data
- Right to request deletion of your data
- Right to export your data in a portable format
- Right to withdraw consent for optional data processing
- Right to lodge a complaint with your local data protection authority

AI-Generated Responses

This support platform uses AI to answer your questions, grounded in NovaTech's official documentation where possible. Responses may occasionally be generated from general knowledge when official documentation does not cover your specific question — in these cases, the response will be clearly labeled as general guidance rather than official company policy. Conversation content may be used in anonymized form to improve response quality.

Data Sharing Limitations

NovaTech does not sell your personal data. We share data only with: service providers who help us operate (such as payment processors and shipping carriers, bound by confidentiality agreements), law enforcement when legally required, and third-party integrations you explicitly enable. We never share your data for third-party advertising purposes.

Contact Us About Privacy

For any privacy-related questions, data requests, or concerns, contact our Privacy Team at privacy@novatechsolutions.com, or write to NovaTech Solutions Privacy Office, through this chat platform. We aim to respond to all privacy inquiries within 5 business days.
